Dear Hiring Committee,

I saw the job post on **Handshake** and thought I'd be a good fit for it.

I am a Master's student in Computer Science at the University of Cincinnati, graduating December 2026, looking for a role as a **Student Associate** at the **1819 Innovation Hub**. With experience in fast paced customer facing roles, event support, and team coordination, I am excited about the opportunity to contribute to the **1819 Innovation Hub** and support a welcoming, well run experience for its visitors, researchers, and business partners.

Here are reasons that make me a great fit for the role:

- **Maintaining a welcoming environment for visitors:** As a Barista at Starbucks inside the University of Cincinnati College of Medicine, I support a high volume cafe averaging approximately $4,500 in daily sales, serving 100 to 200+ customers per shift while maintaining fast, accurate, and friendly service during peak rushes.

- **Managing logistics, mail, and materials:** At Siemens Industry Software, I coordinated with multiple stakeholders to improve operational processes, reducing manual work by approximately 30%, and collaborated with global teams to complete 40+ production upgrades that required attention to detail and reliable follow through.

- **Set up and teardown of meeting and event spaces:** I volunteered to organize and serve lunch for more than 100 guests during the Amhi Marathi Student Association's Ganesh Chaturthi 2025 celebration at UC, supporting event setup, food service, crowd coordination, and cleanup.

- **Coordinating logistics for events and special projects:** As an Organizing Committee Member for the Hide-n-CK CTF event, I helped manage logistics, participant assistance, scheduling, and catering coordination for a technical competition with more than 50 participants.

- **Collaboration and dependable teamwork:** I collaborate with 5 to 8 partners per shift at Starbucks to prepare beverages, process transactions, and maintain organized workstations, and I have trained newly hired baristas on procedures and customer service standards.

I am available to work part time now and can continue through my graduation in December 2026. As a Master's student at the University of Cincinnati and someone who values professionalism, organization, and reliable service, I am enthusiastic about contributing to the 1819 Innovation Hub's mission of supporting Cincinnati's startup and research community.

Please find my CV attached below. I look forward to hearing from you. I would be excited to help create a smooth, welcoming experience for everyone who walks through the doors of such an important hub for innovation in Cincinnati.

Regards,
