Cincinnati, OH

SUMMARY

Software Engineer and M.S. Computer Science candidate (Dec 2026) with production experience shipping features inside large existing codebases and workflows. Strong C/C++ and object-oriented fundamentals, fast at learning new technical stacks, and experienced in full-stack JavaScript, React, state management, API integration, and interactive image data.

EDUCATION

Master of Science in Computer Science Aug 2024 - Dec 2026
University of Cincinnati
Relevant Coursework: Advanced Algorithms, Deep Learning, Intelligent Data Analysis.

Bachelor of Engineering in Computer Engineering Aug 2018 - Jul 2022
AISSMS College of Engineering
Relevant Coursework: Object-Oriented Programming, Machine Learning, Data Analytics.

TECHNICAL SKILLS

Programming: C++, C, Java, Python, JavaScript, TypeScript, SQL, Go.

Web & App: React, Node.js, Express, Redux/Zustand state management, HTML/CSS, REST APIs, WebSockets.

Concepts: Object-Oriented Design, Design Patterns, Data Structures and Algorithms, Performance Optimization, Debugging.

Databases & Data: PostgreSQL, MySQL, pgAdmin, Apache Spark, Delta Lake, Redis, SQL.

Developer Tools: Git, GitLab CI/CD, Jenkins, Docker, Linux, Bash, AWS, Visual Studio, VS Code, OpenCV.

WORK EXPERIENCE

Graduate Researcher | University of Cincinnati Feb 2026 – Present

- Built a config-driven automation harness in Python driving a live device through inferred actions, with stall detection, a history-windowed decision loop, and interactive UI-state and image analysis (scikit-image, OpenCV).
- Demonstrated **25.7x latency reduction** (39.4s vs 1012.1s avg per run) over the **ViBR** baseline across 53 runs on 20+ real-world apps while preserving task fidelity.

Software Development Engineer | Siemens Industry Software Jul 2022 – Jun 2024

- Joined an established **Teamcenter X** codebase and delivery workflow, taking ownership of features, internal tools, and technical problem-solving as familiarity grew across **40+ production environments**.
- Automated infrastructure workflows in Python (Boto3), replacing legacy Ruby scripts and reducing deployment time by **40%**; executed **44 production upgrades** in 4 months, diagnosing live issues across Linux, EC2, databases, and services.
- Designed an **Ansible-based Blue-Green deployment** framework, reducing production upgrade downtime by **50%** while enabling reliable rollback and recovery.
- Served as Quality Coach and SonarQube Specialist, raising automated code coverage from **35% to 78%**; mentored **5 engineers** and collaborated across teams on technical decisions.

Software Developer Intern | Siemens Industry Software Mar 2022 – Jun 2022

- Ramped quickly on an unfamiliar toolchain, automated AWS provisioning with **Terraform** (**30%** faster deploys), and built a **Go + Terratest** framework catching **95%** of misconfigurations pre-production.

Software Developer Intern | Government of Maharashtra, Water Resource Department Sep 2021 – Dec 2021

- Built and deployed a full-stack **React and MySQL** workflow application that digitized departmental record management, automated manual processes, and improved operational efficiency by **40%**.

PROJECTS

SoundScape – Interactive Android App [Java, Android SDK, REST APIs, MediaPlayer, Gradle] Dec 2021

- Built an end-to-end interactive Android app in **Java** using object-oriented design, a real-time **MediaPlayer** playback engine, and a component-separated architecture for playback, notifications, and file operations.
- Integrated the Musixmatch API with local Room caching, reducing API calls by **70%** and keeping the interface responsive under repeated user actions.

PolicyPilot – Policy Intelligence Portal [React, TypeScript, Node, Express, Zod] May 2026

- Built a full-stack **TypeScript** app (React SPA + Express 5 REST API) managing multi-step application state and user-facing workflows on one Node.js process, with Zod schema validation at every data boundary.

EXTRACURRICULAR ACTIVITIES

- **Finalist, RevolutionUC 2025 Hackathon** (300 participants, 31 schools) | **SAFe Practitioner 5.1** (Mar 2023).
