Cincinnati, OH

SUMMARY

Software Engineer with production experience in containerized application workflows and infrastructure automation using Python, Go, Kubernetes, Docker, Helm, and GitOps tooling. Skilled in CI/CD, infrastructure-as-code, and Linux systems operations, with a track record of debugging and troubleshooting live containerized environments.

EDUCATION

Master of Science in Computer Science Aug 2024 - Dec 2026
University of Cincinnati
Relevant Coursework: Advanced Algorithms, Deep Learning, Database Theory.

Bachelor of Engineering in Computer Engineering Aug 2018 - Jul 2022
AISSMS College of Engineering
Relevant Coursework: Data Mining, Machine Learning, Object-Oriented Programming.

TECHNICAL SKILLS

Programming: Go, Python, TypeScript, JavaScript, Java, C/C++, SQL.

DevOps & Cloud: GitOps, ArgoCD, Kubernetes, Helm, Docker, Terraform, GitLab CI/CD, Jenkins, AWS, Linux, Bash, Azure, Google Cloud Platform.

Web & Backend: Node.js, Django, Flask, FastAPI, REST APIs, HTML/CSS.

Databases: PostgreSQL, MySQL.

Other Tools: Git, SonarQube, HashiCorp Vault, Ansible, pandas, NumPy.

WORK EXPERIENCE

Software Development Engineer | Siemens Industry Software Jul 2022 – Jun 2024

- Migrated **40+ production environments** from process-based deployments to Kubernetes using GitOps workflows with **ArgoCD**, **Helm**, and GitLab CI/CD, modernizing container orchestration across the fleet.
- Automated Teamcenter X infrastructure workflows with **Python** (Boto3), replacing legacy Ruby scripts and reducing deployment time by **40%** across AWS environments.
- Executed **44 production environment upgrades** in 4 months, debugging and troubleshooting live containerized infrastructure issues across **Linux**, EC2, and Docker-based services.
- Built **infrastructure-as-code** automation using **Terraform** and Ansible for environment provisioning, standardizing setup across 40+ production environments and enabling reliable rollback.
- Served as Quality Coach and SonarQube Specialist, increasing automated code coverage from **35% to 78%**; mentored **5 software engineers** through structured onboarding.

Software Developer Intern | Siemens Industry Software Mar 2022 – Jun 2022

- Automated provisioning of AWS resources with **Terraform** (infrastructure-as-code), reducing deployment time by **30%**.
- Developed **Go** + Terratest framework for infrastructure validation, catching **95%** of misconfigurations pre-production.

Software Developer Intern | Government of Maharashtra, Water Resource Department Sep 2021 – Dec 2021

- Built and deployed a full-stack **React and MySQL** workflow application that digitized departmental record management, automated manual processes, and improved operational efficiency by **40%**.

PROJECTS AND RESEARCH

PolicyPilot – Medical Benefit Policy Intelligence Portal [React, TS, Node, Docker, Gemini] May 2026

- Built full-stack **TypeScript** healthcare app (React SPA + Express REST API + MCP server), containerized with **Docker**, unifying insurance prior-authorization workflows on a single Node.js process.
- Designed **17-tool MCP server** with Zod schema validation at every data boundary, eliminating a class of runtime type-mismatch bugs across external tool calls.

NYC Mobility Forecasting [Python, FastAPI, PostgreSQL, Docker, scikit-learn] Jul 2026

- Built RESTful API (**Python**, FastAPI) serving real-time demand predictions, integrated with PostgreSQL and Redis, containerized with **Docker** for cloud deployment.

EXTRACURRICULAR ACTIVITIES

- **Finalist, RevolutionUC 2025 Hackathon** (300 participants, 31 schools) | **SAFe Practitioner 5.1** (Mar 2023).
